FOR GOOD DRIVERS

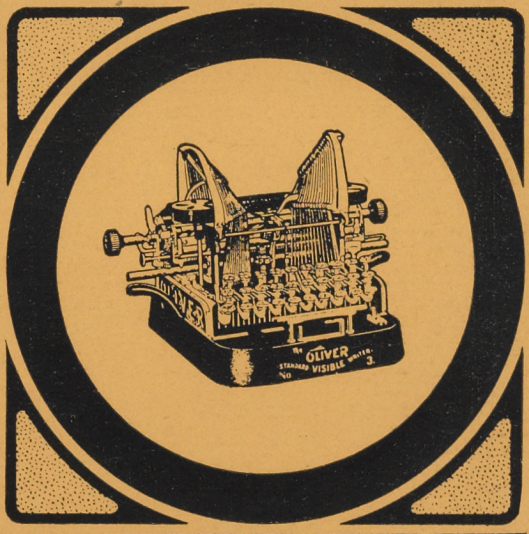
If you wanted a horse or a dog would you buy an AGED or BLIND one —just because it had won blue ribbons and belonged to a once noted breed?

Of course not!

Then why purchase an aged or blind typewriter? "The Standard Visible OLIVER" is the greatest time-saver and the most faithful worker obtainable in writing machines.



The Oliver is used by CAN. PAC. RY. (exclusively) for their most important work—Waybilling and Expensing

COSTS NOTHING TO TRY

FOR GOOD DRIVERS

Just as of yore

We tell once more the same old story true, only, instead of embellishing it with the same old hackneyed adjectives, we simply say that we can beat them all, hands down, on anything in the line of printing, and if you will drop in or call us up when you are ready to place that next order we will show you how we "do things." Good men, honest goods and the finest equipment in the West have been the factors that have placed us foremost in the van of successful printers, and with your patronage we shall continue the rapid expansion and development of the past, and be ever at your service with that acme of quality and efficiency you have so generously appreciated in the past. The scope of our business is so great that we hesitate to enumerate in this space the many kinds of printing in the production of which we excel, but, briefly, we can do anything in society, commercial, legal or municipal work—*and do it right.*
